WORK EXPERIENCE

.Net Backend Engineer

Nov. 2022 - Oct 2023

Conclase Consulting

- Collaborated with a fellow developer to redevelop the digital loans API in .NET at Fidelity Bank, which resulted in an increase in the efficiency of the loan process for customers.
- Enhanced and optimized the Loan Letter application to significantly improve the overall experience for bank loan customers.
- Integrated the myBankStatement (WallzandQueen) API for external bank customer loan eligibility checks and loan booking process at Fidelity Bank

.Net Backend Engineer

May 2022 - Jan. 2023

United Bank for Africa

- Implemented Revamped functionalities to effectively serve over 5 million customers seamlessly.
- Optimized queries for the heavy-load parts of the system, which improved application service responsiveness and reduced the database costs on the card reordering application.
- Upgraded the card ordering and remapping module frontend from Angular 8 to Angular 13 and developed required new API features in .NET for Nigeria and Africa branches.

Data Science Intern

Aug. 2022 - Dec. 2022

Zummit Africa

- Played a key role in data collection, analysis, and interpretation to drive the optimization of product development, which resulted in timely delivery of projects.
- Actively contributed to the development of the [ZAPI marketplace](#) by developing AI driven APIs using Flask and FastAPI.

.Net Full Stack Engineer

Dec 2019 - April. 2022

Fintrak Software Co. Ltd.

- Collaborated actively as the lead engineer in the design and development of the data harmonization application for Standard Chartered Bank, which increased the annual strategic business unit revenue by 20%.
- Developed API and frontend for credit score applications in Asp. Net zero with an angular template.
- Integrated Finacle's customer API into the credit rating application and customized it for Wema Bank to improve usability and customer experience.
- Converted the legacy IFRS9 application backend to MYSQL from MSSQL to reduce database costs by 20% and move the application to AZURE.

EDUCATION**Software Engineering Technology Co-op Diploma**

May 2023 - Present

Centennial College, Toronto, ON

*Expected graduation Dec 2024***Bachelor of Science - Software Engineering**

Sept. 2014 - February 2018

Université Africaine de Technologie et de Management, Bénin.

Academic Projects: Designed and developed a comprehensive result management system that facilitates course registration for students, enables lecturers to grade students and upload their result, and provides students with the ability to access their results using their unique student ID in **PHP**.
