SOFTWARE DEVELOPER

Programming | Cloud Services | Technical Support

- Experienced software developer with skills in diverse applications, interfaces, and information systems.
- Proficient in C#, .NET, Nodejs, Python, Java, PHP, databases (MySQL, Oracle, MS-SQL Server), Unix/Linux, HTML/XML, Dockers, Kubernetes, Active Directory, TCP/IP, APIs, and cloud platforms (Azure, AWS).
- knowledge and experience in design patterns, SOLID, RESTful API, and microservice architecture.
- Proven experience working with ORM such as Entity Framework and Dapper,
- Proven experience with message-oriented middleware systems such as RabbitMQ
- Strong communication skills in English and A2 level French.

TECHNICAL SKILLS

Languages/Frameworks: C#,.NET,.NET Core Framework , SpringBoot, WinForms, Java, NodeJs, ReactJs, JavaScript, HTML, CSS, Python, SQL, Shell Script, React, Bootstrap, Express, Spring, JSON, ASP.NET, ASP.NET CORE MVC, MySQL, MSSQL, PLSQL, FastAPI, Flask

Tools/Technologies: Visual Studio, Eclipse, VsCode, Oracle, Android Studio,Azure, AWS, Microsoft Azure, Postman, MongoDB, Git,Github, MS Office, SSMS, and Azure Devops.

WORK EXPERIENCE

.Net Fullstack Engineer,   Jan. 2023 - Present
WIMTACH Centennial College
- Developed and integrated backend APIs and frontend interfaces using .NET Core and Angular for a cloud-based medical appointment and billing platform.
- Contributed to the financial module and scheduler, building services, writing tests, and ensuring smooth backend-frontend communication.
- Developed a data migration console app to consolidate healthcare databases and collaborated in an agile environment to improve system functionality.

.Net Backend Engineer,   Nov. 2022 - Oct 2023
Conclase Consulting
- Collaborated with a fellow developer to redevelop the digital loans API in .NET at Fidelity Bank, which resulted in an increase in the efficiency of the loan process for customers.
- Enhanced and optimized the Loan Letter application to significantly improve the overall experience for bank loan customers.
- Integrated the myBankStatement (WallzandQueen) API for external bank customer loan eligibility checks and loan booking process at Fidelity Bank

.Net Backend Engineer   May 2022 - Jan. 2023
United Bank for Africa
- Implemented Revamped functionalities to effectively serve over 5 million customers seamlessly.
- Optimized queries for the heavy-load parts of the system, which improved application service responsiveness and reduced the database costs on the card reordering application.
- Upgraded the card ordering and remapping module frontend from Angular 8 to Angular 13 and developed required new API features in .NET for Nigeria and Africa branches.

Data Science Intern   Aug. 2022 - Dec. 2022
Zummit Africa
- Played a key role in data collection, analysis, and interpretation to drive the optimization of product development,which resulted in timely delivery of projects .
- Contributed to the development of the ZAPI marketplace developing AI driven APIs using Flask and FastAPI.

Olawale Olabisi

647-808-1255   olabisiolawaleanthony@gmail.com

.Net Full Stack Engineer   Dec 2019 - April. 2022
Fintrak Software Co. Ltd.
- Collaborated actively as the lead engineer in the design and development of the data harmonization application for Standard Chartered Bank, which increased the annual strategic business unit revenue by 20%.
- Developed API and frontend for credit score applications in Asp. Net zero with an angular template.
- Integrated Finacle's customer API into the credit rating application and customized it for Wema Bank to improve usability and customer experience.
- Converted the legacy IFRS9 application backend to MYSQL from MSSQL to reduce database costs by 20% and move the application to AZURE.

EDUCATION

Software Engineering Technology   May 2023 - Dec 2024
Centennial College, Toronto, ON   **(*Expected*)**

Bachelor of Science - Software Engineering   Sept. 2014 - February 2018
Université Africaine de Technologie et de Management, Bénin.
  Academic Project: Developed a result management system for student course registration, lecturer grading, result uploads, and student result access via unique IDs.

CERTIFICATIONS AND TRAINING

- WIMTACH Centennial College (certificate of participation, Blue Salt Hackathon)
- Microsoft Certified in **AZ-900**, **AI-900**, **DP-900**, **SC-900**, and **PL-900**.

- Google African Scholarship Android Development (Andela)
- Project Management (OSHA Consult)

OTHER WORK EXPERIENCE

Sort Team Member   July 2023 - Present
Amazon Whitby ON
- Sorted and categorized packages accurately to meet Amazon's quality standards for destination and delivery requirements.

Operation Staff   April. 2023 - Present
Centennial College Student Association
- Managed daily operational tasks, including inventory control, vendor management, and customer inquiries, ensuring smooth workflow.

Customer & Technical Support Specialist   July. 2018 - Nov. 2019
Ministry of Education Science & technology, Lokoja .
- Managed registration of 5,000+ students, developed custom data collection forms, and trained staff to reduce technical issues by 44%.

Android Programmer & Support   August. 2018 - Feb. 2019
C Lounge Inc
- Developed the Android version of the iOS app and implemented routine tests to maintain 99.9% software efficiency.
