Objective

Energetic, meticulous, and creative DOTNET FULL-STACK and enthusiastic DEVOPS ENGINEER with an artistic keen eye for details, indepth knowledge of designing innovative, responsive, and business-driven web applications, and a firm believer in the customer- first approach. Adept at application development, database management, and application implementation to deliver superior software applications that improve business processes. Enjoy working closely with team members to ensure workloads are effectively redirected to solve bottlenecks. Strong passion for personal growth and development.

Skills

- • Critical Thinking • Problem Solving • Interpersonal Skills • Team Management • Organizational Skills. • Microsoft Office Suite • Time Management Skills • Excellent communication skills • Goal-Oriented and Ambidexterity

- • Cloud computing • Azure DevOps • Azure • Graphic Design • Kotlin & Flutter Dart • Python, Angular Framework • Customer Relationship Management • Azure DevOps & Azure Fundamentals • CSS, HTML, PHP, C#, Git & Jquery • Angular Js, Java, Javascript & Web3.js • SQL, MySQL, Microsoft SQL & Solidity • Asp.Net, Asp.Net MVC & Asp.Net Core

Experience

- **Zummit Africa** 								August, 2022 - Present
  Data Science Intern
  • Execute advanced analytics / machine learning techniques (regression, ANOVA, k-means clustering, decision tree classifier models) on data sets pertaining to Viacom's digital content viewership
  • Develop statistical models predicting success metrics for online movie recommendation system, keywords extraction API and lot more.
  • Build Flask and Fast API around models to contribute to the ZAPI API marketplace development
  • Use of data science tools including Python, SQL, and more

- **United Bank for Africa** 								May, 2022 - Present
  Dotnet Backend Engineer
  • Worked on Microservice architecture using Rabbit MQ as the message broker.
  • Implemented enhancements that improved application functionality and responsiveness.
  • Revamped functionalities to effectively serve over 5 million customers seamlessly.
  • Optimized queries for the heavy-load parts of the system which improved application service responsiveness and reduced the database costs.
  • Managed multiple projects while ensuring premium quality and meeting project deadlines.
  • Upgraded the card ordering and remapping module frontend from Angular8 to Angular13 and developed required new features for Nigeria and Africa branches.

- **Fintrak Software Co. Ltd** 								December, 2019 - April, 2022
  Full stack Dotnet Engineer
  • Integrated Maxut Draxla 2FA for core banking & web application.
  • Converted the legacy IFRS9 application backend to MYSQL from MSSQL to reduce database cost by 20% and published it to AZURE
  • Designed assessment forms for different customer stages that cut processing time by 30% in the vendor online portal.
  • Led development of version upgrade with improved customer experience resulting in a 31% increase in annual revenue for my Strategic business unit.
  • Integrated Finacle customer API into the credit rating application and customize it for a bank to improve usability and customer experience.
  • Developed API and frontend for credit score application in asp.Net zero with an angular template.
  • Collaborated actively as the lead engineer in the design and development of the data harmonization application for Standard Chartered Bank, on the Harmonization of the Statutory Data Rendered by Financial Institution to NIBSS PLC that increased the strategic business unit revenue by 20%.

- **Education Management Information System**   July, 2019 - November, 2019
  It personnel
  • Built landing pages that increased conversion by over 64%.
  • Efficiently set up video conferencing devices and equipment.
  • Designed, developed, and maintained custom web applications.
  • Handled registration of over 5000 students and ensured effective database management.
  • Neatly serviced and installed network devices such as servers, network cables, storage drives, etc.
  • Created a virtual training environment to help increase staff skills in maintaining and troubleshooting operations cutting down snags by 44%

- **Kogi State Ministry of Education Science and Technology**   July, 2018 - June, 2019
  It Assistant
  • Wrote reports and prepared presentations for the senior staff.
  • Participated in coding projects and mentored students on coding
  • Handled all aspects of maintenance, servicing, and after-set-up help.
  • Developed a scalable data collection, management, audit, and analysis app.
  • Resolved over 500 client issues providing technical advice on enhancements and troubleshooting decreasing issues by 76%.

- **Clounge Inc**   November, 2018 - Febuary, 2019
  Android Programmer
  • Wrote code for database-driven applications
  • Provided customer support training experience for 2 completed applications.
  • Handled code maintenance and optimization to maximize performance resulting in a 56% increase in customer satisfaction.
  • Established a routine of planned tests to achieve software functionality, glitch elimination, and maintenance ensuring efficiency is always at 99.9%.

Education

- **Université Africaine de Technologie et de Management**   2018
  Software Engineering
  First Class

Certifications

- **Azure DevOps GIIT AFRICA [2022]**

- **Microsoft Certified: Azure Fundamentals Microsoft [2022]**

- **Software Developer (Fintrak Software Academy) October 2020**

- **Project Management Professional (OSHA Consult) October 2018**

- **Google African Scholarship Android Development (Andela) August 2018**

- **The Online Marketing Fundamentals (Google) November 2017**

- **Diploma in Entrepreneurship November 2013**
